Programming Languages: C, Core Java, Python, PHP
Web Technologies: HTML, CSS, JavaScript, ReactJS
Tools: Figma, Canva, VS Code

Projects

Cab Booking Website
PHP, HTML, CSS, JavaScript, MySQL, Apache (XAMPP)
- Designed a taxi booking website with dynamic features using PHP, HTML/CSS/JavaScript for the front-end.
- Implemented a backend database using **MySQL** and connected it through **Apache server in XAMPP**.

Sanchaari Canteen
PHP, HTML, CSS, JavaScript, MySQL
- A platform that lets bus passengers pre-book meals and pick them up at designated stops.
- Suggests nearby canteens based on the bus route, ensuring timely and convenient delivery.
- Built to be responsive and user-friendly.

csv_file_analizer (NPM Package)
JavaScript, Node.js, React, Python concepts
- Developed and published a custom **NPM package** named `csv_file_analizer`, inspired by Python's pandas library.
- Provides CSV data operations and analysis in both **table format** and **JSON format**.
- Integrated a frontend interface that displays results interactively and keeps a **history of operations**.
- Available publicly on NPM for anyone to install and use.

Extra Curricular Activities

- Participated in NSS
- Participated in sports

Hobbies

- UI/UX Designing
